

TARC Minutes 20250908

Members introduced themselves with callsign and name

AA1AL advised that Nets were going well and thanked everyone for checking in

KN4VZR shared upcoming radio events and contests

TARC Fall Fields Ops date is slated for the weekend of October 25th at Stan's place in Samantha, and if weather or other things get in the way, then we'll do it the weekend of November 1st. Further discussion of details and such will be at the October meeting.

KN4VZR mentioned that as part of 501c3 registration, we need to have specific wording within our club bylaws to declare that any funds and/or assets in possession of the 501c3 organization at the time of its dissolution must be distributed in accordance with IRS codes. A motion was made for the bylaw committee to reconvene and present an amendment to do as such; the presentation should be made at the next scheduled club meeting.

KN4VZR mentioned the Space Force HQ move to Huntsville and how that could affect amateurs more local to that area (or traveling in that area) – specifically, some bands may have power limitations that apply in that region to avoid interference with radar and other operations.

KN4VZR, KF4DGS, and others discussed emergency preparations and related; the EMA's CERT course was recommended as a good resource for members to consider.

KN4VZR sent out a message to all members via WinLink email and advised everyone to check that if able.

AG4H talked with DCH education department about offering a CPR class for us. They are trying to work out a way to offer a separate class for us on a weekend or perhaps at a regular club meeting, so long as we are able to arrive early to ensure adequate time for the class and post-test. Tentative plan is to do this in January, which will give everyone plenty of time to work out the details.

Next meeting is October 13th, same time and same place as usual.
